Your Digital Hub is more than a visiting card. It is a tool to automate your bookings, boost Google Reviews, and save you 10 minutes every day.

1

The Review Engine

Asking customers to 'search you' rarely works. They forget. Instead, send your Profile Link. When they click 'Review', it opens your Google Rating page instantly.

ACTION: Send this to 5 happy customers today.

2

The Time-Saver Protocol

Stop typing your address, map location, and details on WhatsApp. Just share your Digital Card. It has your Map, UPI, and Booking link built-in.

ACTION: Save your link as a 'Starred Message' on WhatsApp.

3

The Counter Strategy

We have included a 'Smart QR Code' in this folder.

Print it and stick it on your billing counter or desk.

ACTION: Customers can scan to Pay, Review, or Save your number.
